CAPABILITIES STATEMENT

ABOUT JBLENDZ COMMUNICATIONS

For two decades our team has been developing and maintaining America's Midwestern Telecommunication Infrastructures. By specializing in telecom and infrastructure, we have built our business on a foundation of expertise, teamwork and customer service. Our comprehensive service to telecommunication network providers, encompasses the initial planning right through to a full time support structure. By offering this bespoke service solution from highly experienced industry professionals enables us to work in partnership with companies that provide everything from metro networks to rural and residential home installations.

CORE COMPETENCIES

Our constant strive for improvement, development of work methods and providing our clients with solutions for specific needs has been the key to our continuing success related to the following:

-  Full Network Installations
-  Network Upgrades
-  Bonded DSL Installations
-  GPON Installations
-  Network Maintenance

PAST PERFORMANCE

- Copper Cable HSI Installation & Repair
- Fiber Optic Residential Installation
- Aerial & Buried Cable Maintenance
- Advanced Training & Curriculum Development
